

Important notification about the take over of ktec GmbH by HAHNER ECO TECHNICS GMBH & CO.KG

To whom it may concern:

On November 1, 2016, the court of Ingolstadt reached a decision regarding the insolvency proceedings were opened against the assets of ktec GmbH Automation, Mess- und Fördertechnik due to inability to make payment.

In order to make continuation of the business operations possible, the assets have been sold in the form of an asset deal to HAHNER ECO TECHNICS GMBH & CO. KG as of November 1, 2016.

As a customer, the most important issue for you is that the familiar location in Geisenfeld will be retained as a HAHNER ECO TECHNICS facility.

HAHNER ECO TECHNICS is a subsidiary of the HAHNER Group with more than 200 employees. The parent company, HAHNER Stahlbau, is among the most leading and innovative companies in Hessen in the field of steel construction. You will find more information about the HAHNER Group at www.hahner-stahlbau.de.

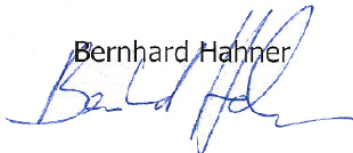

By doing this, all of the existing and future contracts will be completed and the provision of replacement parts will be guaranteed over the long term.

By keeping the majority of the employees, the technical knowledge in all the areas of development, construction and manufacturing of conveyor and measurement technology will be retained from the familiar ktec product portfolio.

HAHNER ECO TECHNICS will continue to make the contact people familiar to you available as skilled, reliable partners for the future.

We are happy about the possibility for future collaboration and will be available to you for any questions at any time.

Yours sincerely,

Bernhard Hahner
